EYFS – Space Week

Dear families,

This week the whole school is taking part in a Science Week with the theme being Space. Mrs Hurton and Miss O’Shea (Science lead) have planned a fun week of Space themed learning for Hardwick Class.

They have bought an online activity workshop specifically designed for EYFS from Inventors and Makers. The workshop is designed to teach key STEAM concepts (Science, Technology, Engineering, Art and Maths) through inspiring and engaging hands-on-activities as pupils also develop skills in team work and problem solving.

The children will learn about star gazing, astronauts, gravity, rockets and the moon.

To help cover the cost of some of the workshop and the resources needed, we are asking for a £2 donation.

Thank you for your support.

Mrs Turner and Mrs Hurton
